agustina394

only issue i saw was the size of the product cards if the image is a low resolution than it looks quite blurry at the current card size

agustina394

beyond that it looks great might change some of the quiz images on our own not sure we would probs just deploy it as is for now an change things after the fact

I understand the concern about the product card image resolution. If it's a time-sensitive issue, we can proceed without that change for now, and I can address it later when you're ready. I'm glad to hear your client is happy with the project overall!

Let me know if you need any further adjustments.
