#### DELIVERY #8

Me  
Hello theo,

First of all, we sincerely apologize that even for small changes, we're having to do a lot of work on our side.

Some of the changes require backend adjustments as many parts of the system are interconnected. This is why even minor edits are taking more time than expected.

Additionally, your Figma file has been a bit unorganized from the beginning, so we've had to spend extra time reviewing your recordings and going through comments carefully to understand the requirements.

Please don't worry—we are committed to resolving all your issues properly.

We are now working through the Figma file and addressing the issues based on your comments. We've marked the corrections we've completed with comments, and for areas where we need further clarification, we've also left comments.

Kindly review all our comments—check whether the corrections we've made are working as expected. If anything is still not right, feel free to let us know by replying directly to the relevant comment.

A small request:  
Please do not delete anything from the Figma file or add any new designs at this stage. Let us fix all existing issues first.

Once everything is resolved, we can work on any new updates you want—this will help us avoid confusion and work more efficiently.

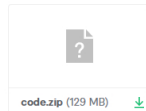

Lastly, we've submitted a delivery only to avoid any negative impact on our profile. You do not need to accept the delivery.

Please just accept the time extension request instead. We'll make sure to finish everything within that time.

Thank you so much for your cooperation and patience.

Hello theo,

This delivery is only to prevent our profile from being hampered.

You do not need to accept this delivery.

I will be sending you an extension, and you can accept the extension instead.

Thank you for your understanding and cooperation.
