Ordered by gogame2025 (view history) | Date ordered Jul 6, 2025, 11:57 PM

We propose the following comprehensive development for GoGame's sports travel booking website:

## Scope of Work:

1. UI/UX Design (Figma): A full set of wireframes, responsive design mockups, and a design system, ensuring a user-friendly, engaging platform.
2. Frontend Development (React.js): Building a dynamic, interactive user interface with a component-based architecture, responsive for mobile and desktop.
3. Backend Development (Node.js): Server-side API development for form handling, customer data storage, and secure payment integration.

Price: \$1,300

Timeline: 30 days

## Pages:

- Homepage
- Package Listing Page
- Package Detail Modal/Page
- Multi-step Booking Form
- FAQs Page
- Testimonials Page
- Contact Page
- Legal Pages (Terms & Conditions, Privacy Policy, Cookie Policy)
- 404 Error Page

Note: If any additional pages or features are added during the course of the project, they will be charged separately and will require an updated quote based on the scope and complexity of the new request.

You will provide me with the login credentials to your domain and hosting to transfer the website is the final delivery.

Hi Omar,

We hope you're doing well. We just wanted to check in and see how everything is going with the development. Have you been able to review what you might need from our side to move forward with the project?

Looking forward to your update.

Best regards,  
GoGame Team

Hello GoGame Team,

Tomorrow I'll send you an update.

Oct 10

You sent a message Oct 10, 2025, 9:03 PM

Hello Gogame,

I hope you are doing well.

We have successfully completed the full backend development and integrated several APIs into the dashboard and landing page. Currently, we are working on a local server, which means live updates are not available today. However, we will be hosting the server live tomorrow, allowing you to review all the progress in real-time.

Thank you for your understanding, and we look forward to your feedback once the server is live.

Hello,

I hope you are well.

I have attached a video where I have discussed everything about the update, process and everything about the project.

Please watch the full video and share if you have any updates.

Hello Gogame,

Hope you're doing well and staying safe!

Can we join a quick zoom meeting now?

You sent a message Oct 12, 2025, 3:59 PM

The API integration is 99% complete. If you can give me VPS hosting credentials, then we can make the website live.

gogame2025 sent you a message Oct 12, 2025, 4:02 PM

Hi Omar,

Thanks for reaching out. Unfortunately, we don't have availability for a video call today. It would be great if you could please share your questions or concerns in writing, as this is usually more comfortable and efficient for us to review and respond thoroughly.

We're also attaching a document outlining the hosting platform we plan to use and the other tools we'll need to connect to the website.

Additionally, we've noticed that we currently don't have a way to edit the Privacy Policy, Cookie Policy, and Terms & Conditions. I remember we discussed this feature before, but it seems it hasn't been implemented in the dashboard. This is something we really need, since these texts may need to be updated in the future according to current regulations.

Please let us know what you think about the hosting option we're proposing and the platforms we plan to connect to the site – and whether you need anything different or additional from us to make it work smoothly. Once you confirm this we will move forward with picking up this hosting and we will be able to provide you the credentials.

Finally, could you also explain how we'll be able to test the website with the backend fully implemented once everything is connected?

Best regards,  
GoGame Team

You sent a message Oct 12, 2025, 4:45 PM

Let me check.

I will get back to you shortly.

You sent a message Oct 12, 2025, 7:22 PM

The plan you shared is ok but if you ask for a suggestion, then I'll prefer the VPS hosting plan and you can take the most popular plan (KVM 2) for a smooth performance all the time.

And if you don't want to join a meeting then, you may need to give us just 10-20 minutes in the Fiverr chat box. In that time, we will log in to Hostinger by your credentials, and at that time, we need verification codes instantly.

For the terms and conditions page, I'll add a new page in the dashboard. From there, you will be able to update these pages anytime you need.

So if you have no problem, then we want to set up the live message tomorrow for credential sharing at 10:30am sharp your time.

gogame2025 sent you a message Oct 12, 2025, 8:54 PM

Hi Omar,

Thanks for your suggestion regarding the VPS plan. We just wanted to confirm — with the KVM 2 VPS plan, would that be everything we need from our side? Or will it be necessary to purchase or configure anything else in addition to that?

Also, since we don't have technical experience with hosting or server setups, could you please make sure to document everything you configure (such as access details, paths, database setup, etc.)? That way, if in the future we need to manage or update something ourselves, we'll know exactly how everything is set up.

One more thing — we won't have the hosting ready by tomorrow, so it would be better for us to do this on Tuesday instead, if that works for you.

Best regards,  
GoGame Team

You sent a message Oct 12, 2025, 9:42 PM

Tuesday works.

I will give you more detail about what I need.

gogame2025 sent you a message Oct 12, 2025, 9:49 PM

Hi Omar,

Great, thank you! We'll need to know the details you mentioned in order to finalize which Hostinger plan we'll choose. Let's stay in touch regarding Tuesday — if we have everything ready by then, perfect, and if not, we'll do it as soon as possible right after.

Thanks,  
Best regards,  
GoGame Team
