Meeting Summary:

Agenda: Discussion on current progress, bugs, missing som functionations and features, and timeline extension for project completion.

Bugs & Missing Functionations and Features: Reviewed identified bugs and incomplete features, which need to be resolved.

Timeline Extension: Agreed to extend the project by 5 days to ensure full completion of the app and AI integration.

Client Expectations: The client emphasized that both the app and AI must be completed within the new timeline.

Next Steps: Focus on bug fixes, completing missing features, and integrating AI. A follow-up meeting will track progress.

 parthtrada accepted your request to extend the delivery time Oct 10, 2025, 7:27 PM

 Me
Hello Parthtrada,

Following up on our conversation earlier, we've decided to extend the timeline by 5 days to ensure we can fully complete the app and integrate the AI as well. This should give us the time needed to wrap everything up properly. Kindly accept it.

Thanks so much for your understanding and collaboration!

 You sent a message Oct 10, 2025, 10:16 PM

Hey there,

Just a quick update – the minor frontend issues have been resolved. Specifically:

- Profile picture upload is now working correctly
- Schedule screen has been implemented
- "Add Card" and p-ayment functionality is done
- Schedule creation from the student's side is working; once the expert accepts the request, the "Copy Link" button will be functional
- After acceptance, the Zoom link will be copied to the clipboard as expected

If you come across any other issues, feel free to point them out and we'll take care of them.

For the items that are dependent on the backend, the backend team is working on those. Once they're ready, we'll implement the necessary changes on our side.

Let us know if there's anything else!

 parthrada sent you a message Oct 11, 2025, 8:53 PM

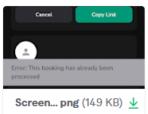

Hi Eshrak, I have reviewd the apk but still I am facing below issues

1. Not able to book the session. Getting error as 'Expert can't book the session'. In this app, anyone can book the session so we need to fix this
2. Not able to cancel the booking. Getting 'this booking has been already processed'
3. Remove availability from expert's profile. That is looking very bad

You sent a message Oct 11, 2025, 9:08 PM

Thanks for the feedback. Here's the plan:

1. Booking Issue: We'll fix the permission error so anyone can book a session.
2. Cancel Booking: We'll address the "already processed" error in the cancellation flow.
3. Profile Availability: We'll remove availability from the expert's profile as requested.

I'll implement these fixes and update the APK soon. Let me know if anything else comes up!

parthrada sent you a message Oct 11, 2025, 9:09 PM

Thanks Eshrak

DELIVERY #4

 Me

Hello Parthreda,

I hope you're doing well. I'm happy to inform you that the project has been fully completed as per your requirements. The updated build is now ready for your review and testing.

Please take a moment to test all the features and ensure everything works smoothly. For testing the Add Card feature, you can use the following test details:

Card Number: 6011 1111 1111
Expiry Date: Any future date
CVC: Any random 3-digit number

Once you've reviewed and confirmed everything, kindly accept the order to complete the delivery.

If you encounter any issues or need further adjustments, please don't hesitate to let me know I'm happy to fix or refine anything as needed.

Thank you again for your cooperation throughout this project.

You can download and install the Android testing build from the link below:

DELIVERY #5

Me

Hello Parthtrada,

I hope you're doing well. I sincerely apologize for the inconvenience caused earlier with the previous build, and I truly appreciate your patience. We have prepared an updated version of the app for your review. Before installing this new build, please uninstall and completely delete any previous version of the app from your device to avoid any conflicts. You can download and install the updated Android testing build from the link below:

<https://drive.google.com/file/d/1P-ewSBqj3u2xj74a8V0KXXUpNyZB32YP/view?usp=sharing>

For testing the Add Card feature, you can use the following test details:

Card Number: 6011 1111 1111 1117

Expiry Date: Any future date

CVC: Any random 3-digit number

Once you've tested the app and confirmed everything works smoothly, kindly accept the order to complete the delivery.

If you encounter any issues or need further adjustments, please don't hesitate to let me know—I'm happy to fix or refine anything as needed.

Thank you again for your cooperation and understanding.
